EMAIL OF THE DAY

Molly Scott

As a person who has been known to cut out the crotch of my partner's trousers and burn his underpants, I want to suggest that attention be shifted to the part of the brain known as the fundamentum nitpickians.

This is the part that causes those with an overactive neocortex (specifically, academics) to interpret any spontaneous human behaviour as pathological.

Do you agree? [E-mail us](#)

Yesterday's email of the day

Richard Barnett

Congratulations on interviewing someone articulate, interesting, and who actually knows what they're talking about. Sadly, not one of our politicians, but Joe Strummer. Any chance of bringing him back on a more regular basis?
